Professional Profile

Software developer with strong knowledge and training in both frontend and backend technologies. Currently working as a QA specialist in test automation, developing and maintaining tests in .NET environments using C#.

Professional Experience

Software QA – NCS Spain Consultoría Tecnológica (September 2024 – Present)

- Development and maintenance of automated tests with C# and Selenium.
- Monitoring and analyzing test runs via Azure Pipelines and reporting defects through Azure Boards.
- Ensuring CI/CD best practices are followed for automation projects.
- Collaborating closely with developers and QA peers in daily stand-ups, retrospectives, and bug prioritization meetings.
